

Comfort and Safety at work have been Helly Hansen's business since 1877. That was the year Captain Helly Juell Hansen came ashore after 20 years of working at sea, to make durable, waterproof clothing for sailors and fisherman. His mission – “to keep workers dry and warm” - was a success. Over the years that followed he continued to find new ways of making clothing to protect and perform, providing comfort through innovation and quality.

For more than a century, Helly Hansen has been a leader in design excellence, fabric development and innovation. From their early days as pioneers, they have continued to excel in the field of functional clothing.

By combining knowledge and experience from both workwear and extreme outdoor sports, Helly Hansen remains a trusted partner and supplier of Performance Outdoor Workwear.

“Between human will and nature's forces”
